

Business Logos: Mosaics in Industry

Mapei: Flooring, Tile, and Building corporation asked 20 artists from around the world to create their vision of what The World of Mapei meant to them. Rendered in 3-D, with handmade tiles and glass, the commission was reflective of the green promise of Mapei, its community outreach, and compassion for the earth. The mosaic travelled all over the world for one year in various showings with the Mapei corporation and now resides in their headquarters in Milan, Italy.

Commission for the Entryway of Moto-Scooter of San Diego

(now the Belching Beaver in North Park, owner pictured below kept the mosaic at the entryway)

Commission for the owners of Balanced Life Therapy Group
